## Works 2 Stroke Pipe

The original Pro Circuit Works pipe offers unparalleled performance and power for every two-stroke application. Increased horsepower and torque gains will quickly be noticed across the entire rpm range. The unplated, oiled metal finish requires some maintenance, but really gives your bike that "Works Look".

## Platinum 2 Stroke Pipe

The Platinum pipe is designed after our world famous Works pipe. It offers the same performance gains, while the Platinum finish reduces rider maintenance and helps protect the pipe from nature's elements. The Platinum pipe is the ideal choice for people who race or ride in extreme weather conditions.

## Platinum2 2 Stroke Pipe

The Platinum 2 pipe was made for people who ride or race off-road. Constructed from heavy-duty 18-gauge metal, it offers increased protection from rock or crash damage. Like the Platinum and Works pipe, the Platinum 2 offers incredible performance with substantial power gains in the low and midrange part of the powerband.

## 304 Silencer

The 304 silencer is recommended for most two-stroke applications. The slightly longer body offers reduced noise output when compared to the R-304. The brushed aluminum body and stainless steel inlet tube and end cap gives you a silencer that looks as good as it performs.

## R-304 Silencer

The R-304 silencer was developed as a full race two-stroke silencer. The compact design of the short aluminum canister offers optimum performance gains and is recommended for closed-course racing only. Hex head screws are used to secure the inlet cap and can be removed easily for quick re-packing of the silencer.
